DETAILED ACTION

Drawings

1. Figures 4 and 5 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.121(d)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: Claims 1-14 have been found to be allowable over the prior art of record since while the prior art teaches an image forming apparatus comprising a sheet placing portion, sheet feeding means for feeding the sheet placed on the sheet placing portion, an image bearing member, transferring means for transferring the image borne on the image bearing member, fixing means for fixing the image transferred by the transferring means and delivery means for delivering the sheet having had the image thereon fixed by the fixing means but the prior art either alone or in combination, neither discloses nor makes obvious the combination of an image forming apparatus comprising, among other features, a main conveying path for guiding a sheet from a transferring means to a fixing means is disposed in a substantially vertical direction on an inner part side of the apparatus main
